

Join the Alfresco life

We specialise in the sale and installation of retractable awnings, glass veranda patio roofs, glass rooms, bespoke fixed and retractable roof canopy systems both for the home and all types of commercial premises.

From the initial telephone conversation and on-site consultation, through to the professional installation, you will be impressed with our commitment to customer service, quality products, and pinpoint attention to detail.

Alfresco prides itself on providing cost effective, bespoke solutions for clients, ensuring profitability is maximised from any useable commercial space. We fit beautiful structures where other companies struggle on price and vision.

Sun Awnings

Alfresco Awnings add additional usable space to your workplace and complete the feel of alfresco luxury for your customer's enjoyment, maintaining that 'on holiday' feeling all year round.

Offering shade from the sun and shelter from the rain, Alfresco Awnings transform your spare, unused or underdeveloped space into an extra room at minimum cost, providing additional profit throughout the year.

Rain Awnings

Complimentary to the primary function of sun protection for your customers, we also provide awnings that can be used in heavy rainfall. With the increasingly unpredictable weather in the UK, the system allows your customers to enjoy the new additional area in peace, free from anxiety over impending showers. With the addition of glass sliding sides these units also provide comfortable protection from strong winds and enable your customers to remain on your premises and spending money whatever the weather.

Glass Veranda Roofs

Alfresco supply the highest quality Glass Veranda Patio Roofs on the market with beautiful style and design, superior strength, 10mm glass and concealed rainwater drainage.

Add space and give your customers the feeling that they are enjoying life come rain or shine.

Alfresco Glass Veranda Roofs are CAD designed for a custom fit and installed by our experienced teams who have been factory trained in Germany by the manufacturer.

Visit Alfresco

Alfresco have an extensive showroom in Thame Oxfordshire, showing the highest quality products from our trading partner who in our opinion, supplies the best outdoor living products in the world.
